Lake Sumter
COMMUNITY COLLEGE

Owning and operating a small business can be tremendously fulfilling and rewarding. However, no one considering it should make the decision lightly, as it requires a great deal of thought and research.

The Business Assistance Center is a partnership between the Lake County Board of Commissioners, Sumter County Industrial Development Authority, Lake-Sumter Community College, Service Corps of Retired Executives (SCORE), as well as other economic development-oriented businesses, municipalities and agencies. It is committed to providing small business mentoring at little or no cost, and to nurturing existing businesses.

Lake Sumter
COMMUNITY COLLEGE
